

## **REPAIRS & MAINTENANCE**

## TENANT AND LANDLORD RESPONSIBILITIES

The table below gives guidance on the responsibilities for repairs and maintenance, in accordance with our full Repairs and Maintenance Policy which you can download here.

Before raising a repair request or undertaking any major repair yourself, please refer to your tenancy contract's terms and conditions. You can contact us via your 'My Inquilab' app to raise a question should you have a query around who is responsible for specific repairs and maintenance if not listed below.

| Nature of Repair / Issue  | Inquilab<br>Responsibility | Resident<br>Responsiblity<br>(service charge dependent) |
|---|----------------------------|---|
| Communal and Shared A   | ireas                      |   |
| Dustbins and the removal of household rubbish                               |                            | ~   |
| Shared areas such as lifts, stairs, rubbish chutes, and communal TV aerials | $\checkmark$               |   |
| Replacement or extra key fobs for communal door entry systems               |                            | ~   |
| Door entry systems for shared areas   | $\checkmark$               |   |
| Communal driveways, and shared driveways not always provided by Inquilab    | √1*                        |   |
| Roof  |                            |   |
| Chimney and stacks  | $\checkmark$               |   |
| Roof structure and coverings  | $\checkmark$               |   |
| Guttering, rainwater pipes, and clips                                       | ~                          |   |
| Fascias, soffits and barge boards   | √                          |   |

| Nature of Repair / Issue  | Inquilab<br>Responsibility | Resident<br>Responsiblity<br>(service charge dependent) |

## Notes

- 1\* Driveways that are charged as part of the weekly rent will be maintained by Inquilab. Where permission has been granted for a driveway and this has been approved by Inquilab any repairing obligation on change of tenancy will fall to Inquilab. However where a driveway has been installed without permission Inquilab reserve the right to remove and recharge for making good the area or will recharge an appropriate amount for repairs carried out to shared driveways where remedial works have been unavoidable because of health and safety concerns.
- 2\* If following inspection it is found that the glass has been broken from inside of the property then the appropriate recharge will be raised. If it is found that the glass has been broken from the outside of the property then a recharge will not be raised unless it becomes apparent that the damage was caused by the resident, visitors or family of the resident.
- 3\* If following inspection of the lock foul play is suspected then following discussions with the resident a recharge will be raised.
- 4\* This is as defined in the Boundary Policy.
- 5<sup>\*</sup> Gas radiators will only be replaced if required by the regulations in force at the time. They will not be replaced for cosmetic reasons such as discolouration.
- 6\* When a new resident accepts a tenancy with a air Source Heat pump arrangements need to be made for a Manager to visit the resident to provide awareness on how to set and operate the system so that the resident can benefit from it working to maximum efficiency.
- 7\* Photovolatic Panels work by converting direct sunlight into electric giving residents free electricity during the day. The panels require very little maintenance. They are self-cleaning but do benefit from an annual clean to ensure that they are working at optimum efficiency.

Once fitted on a property the manufacturers details should be left with the inverter as this includes shut down procedures should they ever be required. An electrician can check that the inverter is working correctly by doing a visual check.

8\* Solar Panels work by converting direct sunlight into heat giving residents free energy to heat hot water during the day. The panels require annual anti-freeze checks, this will be carried out by the association.
